INTRODUCTION

I am an experienced quality/method director who has worked for many years in well-known companies.

Now I am working at a well-known manufacturing factory in Ankara as a board member responsible of method and quality management.

I have black belt certification on 6-sigma, and, I know Lean Production System and TPM, 5S, Kaizen applications well.

Besides a good knowledge on IATF 16949, AS 8100, ISO 22001 and Iso 13485 I also have Lead Auditor certificates, IRCA approved, for ISO 9001; ISO 14001 and ISO 45001 systems. Also, I have good knowledge on TURQUALITY and ETHICAL TRADE AUDIT (SEMaTA pillar 4) and many other management systems.

I am familiar working with SAP, IFS, CANIAS and NETSIS.

As a director some of my main functions are as follows:

- Establishment of factories, selection and assignation of employees, started manufacturing;
- Studies on scrap reduction, cost reduction and productivity;
- Coordination of new products commissioning, improvement of product quality and delivery times according to customer feed backs;
- Preparing strategy plans and determining corporate strategic targets;
- Planning resources for strategic targets, assigning the targets to departments and employees, setting time schedules for the targets, coordinating of implementation of steps according to the time schedules;
- Determination of production capacities on the basis of the product according to the type of product; efficiency calculation of the machine, department and the entire factory;
- Consolidation of updating capacity plans in line with market's demands and production planning activities;
- Ensuring applying Lean Production methods as TPM, 5S and KAIZEN applications in order to increase capacity, efficiency and meet customer expectations;
- Ensuring setting 6-Sigma and improvement teams for the solution of some important complex problems;
- Ensuring of implementation of some important quality systems as IATF 16949, ISO 22001, ISO 13485, ISO9001, ISO 14001 and ISO 45001, ISO 50001, ISO 27001 and getting necessary product certificates,
- Coordination of preparations for TURQUALITY inspection.
- Managing supplier activities to guarantee delivery of products in accordance with the customer delivery time and expected quality level;
- Ensuring production is implemented as makes correct products just in time, good quality level and right at first time;
- Ensuring employees participate in management with the suggestion system
- Consolidation of employees' performance evaluation system.
- Preparation and controlling of the factory budget.
